KEY: EBSCO  SirsiDynix (standard BLUEcloud)
      SirsiDynix (new for Campus)
BC Campus is also for School libraries

• Integration with student/course management systems: BLUEcloud Campus Connection (good for all campus libraries, not just schools)
• Improved reporting focused on school library requirements
• Options for textbook management using BLUEcloud Lists
• Updated booking tools for materials, equipment, meeting spaces, etc.: BLUEcloud Booking
• Improved discovery of information like Lexile Measures, Accelerated Reader levels, award winning titles (including international equivalents) using BLUEcloud Lists
What is BLUEcloud Lists?

• Patron discovery: wish lists, recommended reading, favorites, book clubs
• Course discovery: course required and optional reading lists, study group bibliographies
• Staff: work lists, selection lists, batch edit lists, pick lists

BLUEcloud App for managing & displaying lists created by staff and end users
Creating Lists

- Use bookmarklets to generate My List
- Create an auto-generated list by specifying search and/or filter criteria
- Add item information manually
- Copy a public list to a personal list
Sharing Lists

Share menu, including:
- Email
- SMS
- Facebook
- Twitter
- generate RSS / permalink
- Export to citation formats/software

No approval necessary
- Only publishing the lists will require approval

Track progress
- Mark items as read, submit reviews/ratings
## Publishing Lists

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Select a category from pull down list or suggest a new category</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Set an expiration date or use default</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Authorized staff may publish immediately; non-authorized staff will require staff approval</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Publish to Enterprise</strong></td>
<td></td>
</tr>
<tr>
<td>- Book rivers</td>
<td></td>
</tr>
<tr>
<td>- Searchable lists</td>
<td></td>
</tr>
<tr>
<td><strong>Place on Course Reserves</strong></td>
<td></td>
</tr>
<tr>
<td>- Trigger purchase or ILL for items not already in library/database</td>
<td></td>
</tr>
<tr>
<td>- Place available items on reserve (mediated or unmediated by staff)</td>
<td></td>
</tr>
<tr>
<td>- Auto-populate Course Reserve tabs in My Account for users with matching registered courses</td>
<td></td>
</tr>
<tr>
<td><strong>Push to Learning Management System (LMS)</strong></td>
<td></td>
</tr>
<tr>
<td>- Using Campus Connection integration tools</td>
<td></td>
</tr>
</tbody>
</table>
Display of Public Lists (Staff)

- Same search features as Discovery
- Ready for dashboard displays
- Staff may perform bulk actions (order, remove, change status, transfer ownership, etc)
- Timed batch changes (change item type, list status, etc. at certain date); alerts for designated users
Find a title outside of Discovery
Add title to a list
ERM Key Features

• Support acquisition and management of licensed e-resources
• Provide descriptions of resources at the package (database) level and relate package contents (e.g. e-journals) to the package record
• Display licensed rights; link license documents to resource records
• Track electronic resources from point of order through licensing and final access
• Provide information about the data providers, consortial arrangements, access platform
• Provide contact information for all content providers
• Log problems with resources and providers
• Trigger alerts (e.g. notices to managers when actions are expected or required)
• Support retrieval of SUSHI usage statistics
• May be integrated into other library system modules or may be a standalone system
• May have a public interface, either separate or integrated into the OPAC
BLUEcloud Course Reserves

- **For faculty**, this means simple submission of requests for materials to be placed on reserve, and easy viewing of course reserves information.

- **For the library staff**, this means a streamlined workflow to receive requests from faculty; to process course reserves and manage copyright compliance; and to track the loans of course reserves through BC Circ; to run reports; etc.

- **For students**, this means easy discovery of course reserve materials.
Course Reserves Services

• BLUEcloud Course Reserves will include:
  – Print and digital content
  – Copyright compliance/tracking (CCC)
  – Integration with Learning Management Systems such as BlackBoard, Moodle, Sakai, etc.
  – Integration with class schedule
  – Easy discovery of Reserve items via Search or MyAccount

Archives and Institutional Repository Services

• AIR will seamlessly integrate digital assets, including e-reserves and other institution-specific content, like dissertations, theses, grants, research work, articles, presentations, memos, etc.
• AIR will include options for patrons to submit content and metadata.
• AIR will include services for management of archival collections, both print and digital:
  – Collection-level descriptions and hierarchical linking
  – Support for compound objects
  – End-user submissions with notices and receipts
  – Multiple formats, including MODS and EAD
  – Archiving and migration to multiple formats
  – Tracking of status and preservation activities

Campus Connection Services

• Tools for ILS to interact with student and learning management systems (LMS), other 3rd party apps used by educational institutions (i.e. financial systems)
• UA configuration, widgets, and consulting services
• Enterprise widgets to allow professors/students to add content from Enterprise into LMS
• Auto-population of course reserves titles with student/professor My Account
Reports and Analytics for all services

- BLUEcloud Analytics brings sophisticated business intelligence to all BLUEcloud services, including EBSCO COUNTER & Usage Consolidation
- Drag & Drop analytics
- Standard academic-focused templates, including ARL statistics, track usage, collections, behaviors, etc.
- Output in multiple formats
- Automatic subscriptions to reports
- Easy drill-down, filtering, graphs, sorting, etc.
- Import local databases
- Includes apps for tablets and smartphones
• Seamless **Discovery & Management** of **physical** and **digital** resources (P&D)
• Deep integration with EBSCO Discovery Service (EDS), including single-page results spanning (P&D)
• Focused searching of eJournals using **Full Text Finder**
• Linking to full text from any digital title using **LinkSource**
• Any device: **Enterprise** for browsers, **BookMyne** for smartphones/tablets, and **Social Library** for Facebook.
Discover library’s universe of data with a single search

- Discovery from any device:
  - Enterprise: browser
  - BookMyne: smartphones & tablets
  - Social Library: Facebook

- Everything searching:
  - ILS (Symphony or Horizon)
  - Academic reserves
  - EDS (using EBSCO API)
  - EBSCO widgets
  - BLUEcloud MARC
  - Z39.50 targets
  - Websites
  - Documents (PDF, Word, Excel, etc.)
  - Digital Assets
  - Rooms (CMS content)
Enterprise-EDS Integration

Why Partner with EBSCO?

**Size matters**
EBSCO is the largest intermediary between publishers and content providers. EDS includes content from over 22,000 publishers.

**Metadata matters**
EBSCO does more metadata enhancement than any other discovery provider.
- Robust subject indexing for precision
- Full-Text searching for completeness

**Technology matters**
- Robust and complete API
- Superior Relevance Ranking
- Superior Value Ranking
EDS: More than EBSCO Data

**EBSCO Content**
- All EBSCO databases
- EBSCO eBooks
- Wilson databases

**Other Databases**

**Publisher Content**
- Scopus, ArtStor, CiNii, INFORMIT, Web of Science, MLA International Bibliography, and others.

**Custom Widgets**
- While most content is indexed by EDS, custom widgets can be created for any remaining content.

Global Warming

Global warming is the term applied specifically to indicate rising average global air temperatures. This rise in temperature has the potential to cause drastic changes in climate and weather patterns worldwide by disrupting the equilibrium between incoming solar energy and the thermal energy that is reradiated away from the surface.

Related: Climate change and global warming. Bioethics and global warming. Global warming overview.

1. Title: Observation on Economic, Social, and Environmental Effects of the Global Warming: Experimental Findings From Turkey. (English).
   Author: Gelibolu, Dilek.
   Publisher: Elsevier Science BV.

2. Title: Modeling cumulative effects in life cycle assessment: The case of fertilizer in wheat production contributing to the global warming potential.
   Author: Laratte, Bertrand; Guillaume, Bertrand; Kim, Junbeum; Birregh, Babila.
   Publisher: Elsevier BV.

3. Title: Global warming alarmists double down after devastating 2013: in witnessing cold global temperatures and record levels of sea ice, as well as much scientific and anecdotal evidence of global cooling, warming alarmists are shilling louder.
   Publisher: American Association for the Advancement of Science.
