LUC 2006: Panel Discussion on Searching, New Products & Future Enhancements

Amy Morgenthaler, Service Assurance Manager
Kat Stephens, Consultant
Agenda Today

• Searching in the Java Client
• New Products
• Future Enhancements
• Q & A
Java Client Searching

• Underlying technology searching is the same for the Java client as the C client

• Binocular searching is back!

• New environment variable in iLink can set either (or both!) Quick Search or Power Search to NOT use Boolean or Proximity operators
